Hi Guys,

Switchfin was updated to uClinux 2010R1-RC5 (based on Linux kernel 2.6.34.7) for all supported hardware targets.

All the targets have passed our main test suite.

For the known issues please check the forum topics [IP0x](#) , [BR4 Appliance](#) , [PR1 Appliance](#)

Volunteers to do further testing of the update are very very welcome.

Cheers
